
FWA JANUARY 2017 REPORT

The section below summarizes the work done during the month of January 2017.

ADMINISTRATIVE TEAM AND CAPACITY BUILDING

On January 16-20, 2017, Quaker Service Norway (QSN) organized an intensive training on financial management which took place at Friends Peace garden in Kigali, Rwanda. An organization called “MANGO” from United Kingdom was facilitating this so important training. FWA was represented by three people: the legal representative, the coordinator and the accountant.

A group photo after the five-day intensive training

At the end of the training, we had a graduation day

FWA legal representative with the facilitator

FWA coordinator with the facilitator

FWA accountant with the facilitator

GUESTS

On January 26th, 2017, our new AGLI coordinator here in Africa, Reverend BUCURA David visited FWA and had an opportunity to meet with both FWA staff and some members of the executive committee.

On January 31st, 2017, Orphans'Aid visited FWA. The purpose was to evaluate FWA capacity so that we can work together on a new program supported by the Burundian Alliance Against HIV/AIDS. This new program is about fighting against sexual violence.

From left to right, NDAYIZEYE Adélin (Orphans' Aid projects manager and data collection), NTAHUBA Parfaite (FWA coordinator) and RUCINTANGO Gilbert (Orphans' Aid vice program coordinator)

ACTIVITIES

During the month of January 2017, the activities done were about READY, RSS, AGBV, Art Therapy and CHIVPP projects.

READY

As part of the READY project, different services were offered in the following logic:

13 teenagers from the target group, including 4 female and 9 male, underwent voluntary testing and received information about HIV/AIDS through pre and post-test counseling. We had four young female people from the target group (age between 10 and 19 years) for family planning and related information.

Rape Survivors' Support (RSS)

The pilot self-help group is still meeting at FWA every Friday at 3:00PM. They have now around BIF1,000,000 as their capital.

During this same month, FWA has started to prepare the coming RSS phase where we will have to conduct trauma healing workshops for both GBV perpetrators and victims. At first, we will separate the two groups and then after we will mix them.

??????

Action on Gender-Based Violence (AGBV)

The 2016 final report was produced (See attached)

Caring for HIV Positive People (CHIVPP)

During this month of January 2017, one sharing session, medical follow up and home visits were done for our HIV positive people.

???

Art Therapy

This month of January 2017, the art therapy new program has continued. While sharing about their own stories, these women are doing some kind of Burundian arts. This month, they have made pearls and bracelets. Their products will be sold at a low price so that they can support themselves economically.

MEDICAL TEAM

CONSULTATIONS

18 cases were consulted by our doctor. The nurse received 181 patients including 97 adults and 84 children.

LABORATORY

In the month of January 2017, apart from voluntary testing, there were a total of 181 tests.

Test	Test completed	Positive	Negative
G.E.	89	12	77

Selles	27	27	0
ECBU	0	0	0
Pregnancy	18	6	12
Sero-widal (Typhoid fever)	35	35	0
Glycémie	8	2	6
Complete Blood Count (CBC)	4	-	-
Total Tests: 181			

FAMILY PLANNING

162 women received contraceptives from FWA's nurse. 142 received the contraceptive injection, 15 were given pills and five received male condoms.

PRE-NATAL CONSULTATION

Three women came for the pre-natal consultation.

ARV SITE

At the end of January 2017, we had 107 patients under retro drugs followed at NTASEKA clinic, including 90 women and 17 men. We had also other 86 people under cotrimoxazole only. This means that we have a total of 191 people infected with HIV followed at NTASEKA clinic.

PHARMACY

FWA had all necessary medicines for the month of January 2017.

PSYCHOSOCIAL TEAM

In the month of January 2017, because there was out of stock of screening inputs at the national level, only 51 people received pre and post HIV test counseling and were tested for HIV; 59% of them were women and all the seven people detected HIV positive were women with 14% of seropositivity.

Total Number of People Tested:	51
Total Number of Women Tested:	30
% of People Tested Who Are Women:	59%
Average Age:	25
Median Age:	23
Total HIV+ :	7
Total HIV- :	44
Number of Women HIV+ :	7
Total % Seropositivity:	14%
% of Women Tested Who Are HIV+:	23%
